2020 – 2022
Namakkal, TamilNadu

SKILLS

- Database Management System (DBMS)
- Django DRF
- RestAPI
- Artificial Intelligence
- OOPS Concept
- Web Development
- CRUD Operations

PROJECTS

Bus Management System 📄 | [HTML](#), [CSS](#), [Javascript](#)

07-2025

- The Bus Management System is a software application designed to simplify and automate the process of managing bus transportation operations. This system provides an efficient platform for administrators, conductors, and passengers to manage and access essential information related to bus schedules, routes, seat bookings, and ticket management.

Social-Network-API-DRF 📄 | [Python](#), [Django](#), [RestAPI](#), [DRF](#)

12-2025

- Social Network API is a backend RESTful application built using Django REST Framework (DRF) that enables core social networking features such as user authentication, user discovery, and friend request management. The system uses JWT-based authentication to securely handle user access and ensures that only authorized users can interact with protected APIs.

INTERNSHIP

Uniq Technologies

08-2025

Python Fullstack Developer

Chennai, India

- As a Python Developer Intern, your role focuses on learning and contributing to software development projects using the Python programming language. You will work on writing, testing, and debugging Python code, collaborating with the development team, and supporting the design of efficient backend systems or automation tools.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, CSS, HTML, Django, Flask, GenAI

Developer Tools: VS Code, MySQL, Postman, Django ORM, Google Colab

Technologies/Frameworks: Git, GitHub, ReactJS, Docker, Vercel

EXTRACURRICULAR

NSS/SEMINAR PARTICIPATION

10-2024

Role: Volunteer/Participant

Salem

- Actively participated in NSS (National Service Scheme) and various technical seminars organized at college. Involved in community service programs, social awareness campaigns, and technical events that improved my leadership, teamwork, and communication skills while enhancing my knowledge of emerging technologies like Python, SQL, and web development.
